## ...Strong, Proven Medicine For Your Bottom Line

**MDMANAGEMENT** offers a flexible set of management oversight services to fulfill administrative, financial and strategic needs of healthcare providers. Our method is to partner with providers to assist in the delivery of high-quality, cost-efficient, medical care by working with existing practice administration to manage the time-consuming and complex administrative functions that distract from clinical imperatives.

**Since 1987, through engagements with over 450+ group practices, the average financial return for our turnaround management clients was more than fifteen times our fees in documented financial performance improvement!**
